

PAMELA PAN

Los Angeles, CA | 626-365-6776 | pamela.pan0224@gmail.com | [Portfolio](#)

SUMMARY

Technical GTM and growth marketer building AI-native systems across positioning, acquisition, sales enablement, and experimentation. Experience spans enterprise AI and vertical SaaS, from complex enterprise sales motions to hands-on B2B ICP research, paid acquisition, conversion, and GTM automation. Builder and storyteller, 3× hackathon winner.

PROFESSIONAL EXPERIENCE

Cloudera, Sr. Product Marketing Specialist, AI, Los Angeles, CA Jan 2026 – Present

- Lead GTM strategy for [Cloudera AI Inference](#), powered by NVIDIA, shaping positioning and sales strategy for complex enterprise opportunities; supported a multi-million-dollar deal by aligning customer requirements, product capabilities, and executive messaging. Presented sales strategy and live demo at [Sales Kickoff 2026](#), aligning **700+** sellers and executive stakeholders.
- Developed technical GTM positioning for [Cloudera Agent Studio](#), explaining multi-agent orchestration, context management, tool execution, and enterprise AI workflows across an NVIDIA-supported stack for technical and executive audiences.
- Drive cross-functional AI product launches spanning product, engineering, partner, and PR teams; built [press release](#), technical messaging, launch assets, [thought leadership content](#), and enablement systems for enterprise AI inference offerings.
- Built reusable AI-enabled product GTM knowledge layer across product documentation, customer proof, competitive intelligence, and messaging, helping sales and marketing teams access and synthesize complex product context more efficiently.

Product Marketing Analyst, Data Engineering June 2024 – Dec 2025

- Owned product marketing for Cloudera Data Engineering, contributing to 8.3% YoY ARR growth for the product portfolio.
- Delivered live demos and technical presentations to **500+ customers** at global flagship events, [EVOLVE25](#) (Sao Paulo, DC).
- Drove creation of the flagship [Apache Iceberg For Dummies](#) educational asset by partnering with the lead author to define narrative structure, distill complex interoperability and lakehouse concepts, and align contributions across engineering and product stakeholders.

MoeGo, Growth Product Marketer (Part-time, Project-based Contractor), Los Angeles, CA (Remote) Feb 2026 – Present
Series A Pet Care B2B SaaS startup backed by Base 10 Partners.

- Built an AI-native market pulse intelligence layer combining Salesforce, product knowledge, competitive research, and signals from **10+** communities representing **10K+** pet-care professionals. Surfaced **\$20K+** in competitive revenue opportunities through automated competitor, churn-risk, and customer-sentiment detection, moving market-risk visibility from weekly manual scans to same-day monitoring.
- Built a source-cited ICP intelligence hub covering trigger moments, pain points, desired business outcomes, product levers, case studies, and competitive context; currently used across active sales opportunities representing **\$80K+** in pipeline.
- Prototyped an ICP-led acquisition motion from research synthesis → generating segment-specific landing pages → Google Ads campaigns, generating 3 conversions from an initial ~\$500 paid test and using conversion behavior to refine positioning.
- Partnered with sales, product, and community teams to evolve one-off AI workflows into a reusable intelligence layer that teams can plug into their own ChatGPT skills across sales, content, and enablement.

ByteDance, Global Business Marketing ([TikTok for Business](#)) - Product Marketing Intern, Beijing, China Jan 2021 – May 2021

- Developed data-driven industry narratives and value propositions for TikTok advertising solutions across **20+** verticals.
- Built Tableau dashboards and analyzed vertical performance trends, delivering market insights to six regional sales teams.
- Managed internal knowledge center, case study hub, and product communications for global business teams.

ENTREPRENEURSHIP

Trivo – Co-Founder Apr 2024 – Jan 2025
Led product strategy, GTM, and stakeholder engagement for an AI-powered clinical trial matching platform. Led a 5-person team to win [1st place](#) at the MindState Ideation Competition and pitched the MVP to **80+** investors and healthcare **executives**.

Sales InfoMate – Cornell Tech Product Studio, in Partnership with [Vouch](#) – Product Lead Aug 2023 – Dec 2023
Built an AI sales copilot for Vouch, tech-driven commercial insurance broker, using their sales-call data and policy documents to surface source-cited answers during complex customer conversations. Validated the workflow with Vouch sales team: the prototype answered **7/9** test questions and was projected to save up to **~1 hour/day** in research and follow-up time.

Peachy – Product Lead, Full Stack Engineer July 2023 – Aug 2023
[Won](#) the Grand Prize (top 0.4%) in the “Hack MongoDB on Google Cloud” Hackathon by developing a Slack GenAI assistant. **Designed** and **deployed** cloud-native GenAI application using LLM APIs (Gemini), Slack integration, and scalable backend (MongoDB).
