SUMMARY

AI GTM leader with experience spanning enterprise AI, product strategy, market intelligence, and growth systems. Translates customer, product, and market signals into business outcomes.

PROFESSIONAL EXPERIENCE

Cloudera, Sr. Product Marketing Specialist, AI, Los Angeles, CA

Jan 2026 – Present

- Led GTM strategy for [Cloudera AI Inference](#), powered by NVIDIA, helping secure a multi-million-dollar enterprise opportunity by aligning customer requirements, product capabilities, and executive messaging. Presented sales strategy and live demo at [Sales Kickoff 2026](#), aligning **700+** sellers and executive stakeholders.
- Co-developed technical GTM positioning for [Cloudera Agent Studio](#), explaining multi-agent orchestration, context management, tool execution, and enterprise AI workflows across an NVIDIA-supported stack for technical and executive audiences.
- Drive cross-functional AI product launches spanning product, engineering, partner, and PR teams; built [press release](#), technical messaging, launch assets, [thought leadership content](#), and enablement systems for enterprise AI inference offerings.

Product Marketing Analyst, Data Engineering

June 2024 – Dec 2025

- Owned product marketing for Cloudera Data Engineering, driven **8.3%** YoY growth in ARR for Data Engineering product portfolio.
- Delivered live demos and technical presentations to **500+ customers** at global flagship events, [EVOLVE25](#) (Sao Paulo, DC).
- Drove creation of the flagship [Apache Iceberg For Dummies](#) educational asset by partnering with the lead author to define narrative structure, distill complex interoperability and lakehouse concepts, and align contributions across engineering and product stakeholders.
- Built AI competitive intelligence workflows via Crayon (competitive research platform) and Slack integrations. Delivered ongoing competitive enablement for Crayon, increasing sales adoption of competitive intelligence tools by **14%**.
- Built developer-facing narratives and competitive positioning for data engineering workloads by synthesizing **field intelligence** onsite at **Snowflake Summit** and **Databricks Data + AI Summit**, translating direct practitioner insights into actionable GTM messaging.

MoeGo, Growth Product Marketer (Part-time, Project-based Contractor), Los Angeles, CA (Remote)

Feb 2026 – Present

Series A Pet Care B2B SaaS startup backed by Base 10 Partners.

- Led AI search growth strategy, identifying 20%+ of traffic from LLM-powered discovery channels and building early AEO capabilities.
- Built an agentic GTM workflow that programmatically generates ICP-specific landing pages (e.g., [“Best Boarding & Daycare Software”](#)) and campaign assets from structured customer pain points, driving 14% MoM SQL conversion growth
- Built an agentic community intelligence system that transformed feedback from 2,000+ users into structured product and growth signals, reducing time-to-insight from 1 week to under 1 hour.

Product Marketing & GTM (Contractor)

Sept 2023 – May 2024

- Drove GTM planning and campaign execution across core features; Managed product communication channels and user-facing content.
- Synthesized signals from 200+ customer support interactions to refine messaging, onboarding flows, and feature communication.

ByteDance, Global Business Marketing ([TikTok for Business](#)) - Product Marketing Intern, Beijing, China

Jan 2021 – May 2021

- Developed data-driven industry narratives and value propositions for TikTok advertising solutions across 20+ verticals.
- Built Tableau dashboards and analyzed vertical performance trends, delivering market insights to six regional sales teams.
- Presented industry and product performance insights, translating data and market opportunities into actionable sales strategies.
- Managed internal knowledge resources and product communications for global business teams.

ENTREPRENEURSHIP

Trivo – Co-Founder

Apr 2024 – Jan 2025

Led product strategy, GTM, and stakeholder engagement for an AI-powered clinical trial matching platform. Directed a 5-person team to win [1st place](#) at the MindState Ideation Competition and pitched the MVP to 80+ investors and healthcare **executives**.

Peachy – Product Lead, Full Stack Engineer

July 2023 – Aug 2023

[Won](#) the Grand Prize (top 0.4%) in the “Hack MongoDB on Google Cloud” Hackathon by developing a Slack GenAI assistant. **Designed** and **deployed** cloud-native GenAI application using LLM APIs (Gemini), Slack integration, and scalable backend (MongoDB).
